

10.3 Children's Records

Safeguarding and Welfare Requirement: Information and Records

Providers must maintain records and obtain and share information to ensure the safe and efficient management of the setting, and to help ensure the needs of all children are met.

Policy statement

We have record keeping systems in place that meet legal requirements; the means we use to store and share that information takes place within the framework of the Data Protection Act (1998) and the Human Rights Act (1998).

This policy and procedure should be read alongside our Confidentiality and Client Access to Records Policy and our Information Sharing Policy.

Procedures

If a child attends another setting, we establish a regular two-way flow of appropriate information with parents and other providers. Where appropriate, we will incorporate comments from other providers, as well as parents and/or carers into the child's records.

We keep two kinds of records on children attending our setting:

Developmental records

- These include observations of children in the setting and may include photographs, video clips and samples of their work and summary developmental reports. These records are kept securely on line in our Learning Journals system in accordance with our on line security policy. These can be accessed, and contributed to, by our staff, the child and the child's parents.

Personal records

These may include the following (as applicable):

- Personal details – including the child’s registration form and any consent forms.
- Contractual matters – including a copy of the signed parent contract, the child’s days and times of attendance, a record of the child’s fees, any fee reminders or records of disputes about fees.
- Child’s development, health and well-being – including a summary only of the child’s EYFS profile report, a record of discussions about every day matters about the child’s development health and well-bring with the parent.
- Early Support – including any additional focussed intervention provided by our setting (e.g. support for behaviour, language or development that needs an Individual Education Plan) and records of any meetings held.
- Welfare and child protection concerns – including records of all welfare and protection concerns, and our resulting action, meetings and telephone conversations about the child, a Statement of Special Educational Need and any information regarding a Looked After Child.
- Correspondence and Reports – including a copy of the child’s 2 Year Old Progress Check (as applicable), all letters and emails to and from other agencies and any confidential reports from other agencies as well as the child’s Individual Development Map.
- These confidential records are stored in a lockable file or cabinet, which is always locked when not in use and which our manager keeps secure in an office.
- We read any correspondence in relation to a child, note any actions and file it immediately
- We ensure that access to children’s files is restricted to those authorised to see them and make entries in them, this being our manager, deputy or designated person for child protection, the child’s key person, or other staff as authorised by our manager.
- We may be required to hand children’s personal files to Ofsted as part of an inspection or investigation process; or to local authority staff conducting a S11 audit, as long as authorisation is seen. We ensure that children’s personal files are not handed over to anyone else to look at.
- Parents have access, in accordance with our Client Access to Records Policy, to the files and records of their own children, but do not have access to information about any other child.
- Our staff will not discuss personal information given by parents with other members of staff, except where it affects planning for the child's needs. Our staff induction programme includes an awareness of the importance of confidentiality in the role of the key person.
